Call for Technical Demonstrations

ACM Multimedia 2009
Beijing Hotel, Beijing, China
October 19 - 24, 2009
http://www.acmmm09.org/

Technical Demonstrations will show leading edge work in any area of multimedia technology and its applications. Submissions are particularly encouraged in the areas of haptics, smell, sensors, novel interface design, 3D multimedia and immersive technologies, wireless multimedia applications, multimedia-based security applications, digital rights management, multimedia databases, content analysis, content-based retrieval, multimedia search, multimedia storage, multimedia networking, media processing, entertainment, compression, hypermedia authoring, multimedia social networking, multimedia advertising and innovative applications.

Each submission should consist of a 2 page paper (which will be included in the proceedings if accepted) and a presentation or video, which can be a Microsoft PowerPoint presentation, a Macromedia Flash presentation, or an MPEG/WMV video clip (not more than 5 minutes long). Please zip all files into one, and add the EDAS number at the end of the file name before uploading it. The paper should be prepared in double-column ACM proceedings style, and use PDF for the documents. The two files should be packed into one using zip for upload where each file is named using the assigned EDAS paper number. The submission should be registered and the zip'ed file uploaded through EDAS: http://edas.info/N7691.

All submissions will be peer-reviewed to ensure quality. The review process is single-blinded. An award will be given for the best technical demonstration, as judged by an evaluation panel. Demonstrators will be provided with space and access to a local network (but the demo should not rely on the Internet access). The participants will be required to provide their own computing equipment and any additional network, display, haptic, sensor, etc., hardware needed for the demonstration.
